## EXPERIENCE

### **New Engen, Seattle, WA — UX Designer**

APRIL 2019 - PRESENT

- Created and owned New Engen's design system and worked with developers to implement it leading to a unified look and feel and reduced duplicative effort
- Led design tooling evaluation, migration from Sketch to Figma, and educational efforts to teach designers, PMs, and engineers
- Owned the UX process on over 12 projects which included creating user flows, wireframes, high fidelity mockups, and prototypes based on user and business goals
- Led design reviews with leadership to conceptualize product vision
- Conducted design studios with users, designers, engineers and product managers to help uncover user goals
- Led research efforts including creation of personas, usability testing, and market research

### **Matt Harris Design, Seattle, WA — UX Designer**

JUNE 2018 - OCTOBER 2019

**Globespinning** - Redesigned the Globespinning mobile app for iOS/Android.

**Hazel Analytics' Food Safety Insights** - Lead the redesign of the data analytics and visualization platform.
