EXPERIENCE

New Engen, Seattle, WA — UX Designer

APRIL 2019 - PRESENT

- Created and owned New Engen's design system and worked with developers to implement which lead to a cohesive UI experience and reduced duplicative effort
- Led design tooling evaluation, migration from Sketch to Figma, and educational efforts to teach designers, PMs, and engineers
- Owned the UX process on over 15 projects which included creating user flows, user stories, wireframes, high fidelity mockups, and prototypes based on user needs and business goals
- Led design reviews with leadership to conceptualize product vision
- Conducted design studios with users, designers, engineers and product managers to help product ideation based on user scenarios
- Led research efforts including persona creation, usability testing, and market research
